

Smith's Reef

The reefs can be more difficult to find than The Bight

Great reference:

<https://www.visittci.com/Providenciales/Smiths-reef>

7.5km from Provo Villa

PARK HERE

There are three access points to Smith's reef. This is the "Central Access" I find the parking is easiest here, and the walk to good snorkeling is the shortest.

This reference map is on a billboard found at the end of the beach access path
